## United States Senate

SELECT COMMITTEE TO  
STUDY GOVERNMENTAL OPERATIONS WITH  
RESPECT TO INTELLIGENCE ACTIVITIES  
(PURSUANT TO S. RES. 21, 94TH CONGRESS)

WASHINGTON, D.C. 20510

November 12, 1975

Joshua Lederberg  
Professor of Genetics  
Stanford University Medical Center  
Stanford, California 94305

Dear Professor Lederberg:

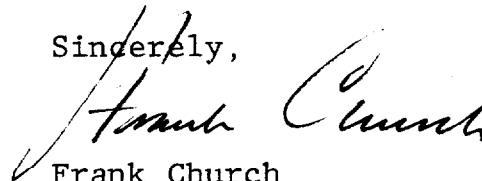

Your correspondence relative to the disposal of the toxic materials which were the subject of the Committee's first public hearings has been brought to my attention. I appreciate your interest in and support for the efforts of this Committee.

I am enclosing a copy of a letter to the Director of Central Intelligence in which the Committee suggests an alternate use for the poisons. In addition, I will call to the attention of proper officials in the Agency your interest and concern.

I am hopeful that this information will be of use to you, Professor Lederberg, and I have added your name to the Committee's mailing list as requested. Unfortunately, the Select Committee is not equipped to handle requests for copies of the public hearing transcripts, however, these documents will be available through the Government Printing Office in Washington in several months. The transcripts are currently available through the transcribing company of Ward and Paul, Inc. which is located at 410 First Street in Washington, D.C. at a cost of \$.80 per page.

Again, thank you for taking the time to write as it is through the assistance of concerned citizens such as yourself that this inquiry will be completed in a thorough and judicious manner.

Sincerely,

Frank Church  
Chairman

Enclosure
